Great little townhouse at an unbeatable price! This house is located in an established urbanization at the beginning of the road to Benahavis, so you have walking distance to shops, restaurants and also the beach. There are 2 swimming pool areas and a childrens playground. The house would benefit from some renovations (Bathrooms and floors mainly). It has an enviable position within the urbanization, as it is a corner townhouse (more windows and light), large patio with sun from midday until late, and parking just outside the house. Priced very competitively to achieve a fast sale!!
