Its asymmetrical architecture together with different shapes and volumes create a special and unique layout. The villa is set on 2 levels and has a total of 4 bedrooms and 4 bathrooms, 3 on the first floor with access to the terraces and amazing views to the Mediterranean. The last bedroom is located on the ground floor, a comfortable place thought specially for guests. The design of this villa is responsible, functional and sustainable. It will be built with the best conditions for thermal insulation, orientation and cross ventilation, thus achieving a clean energy consumption and energy efficiency. The sensation of harmony is intensified by using minimalistic window frames that are embedded into the walls.
